

24th March 2020

Dear Valued Client/Partner,

Re: Working through uncertain times together - COVID-19

Since the national confinement on March 20 in Mauritius and the imposed curfew applicable as from March 23 at 8pm, the past few days have been unprecedented for all of us. Unfortunately like many other countries around the world, our beautiful island home has been infected with the Coronavirus (COVID-19) and it is unsettling for us all. This is a global issue and a significant time of uncertainty, but most importantly it is also a time for communities to come together and take care of one another. Our thoughts are with those who have been affected personally by the outbreak, as well as the many communities facing radical measures in the attempt to slow its spread.

During this period of confinement, AXYS has emphasized to its employees the importance for each one of us to remain at home and follow the prescribed sanitary measures, to protect our dear ones and our community.

Be Responsible, Stay at Home and Help Protect Yourself and Others!

AXYS Group and its subsidiaries have already implemented its Business Continuity Plan with most employees now working from home. We wish to reassure you of our continued commitment to you and we will be doing our best to ensure we provide you with the stability of our service during this unprecedented and challenging time. We continue to follow government advice and best practice to combat the spread of the virus and continue to protect our employees, their families and our community.

Should you have any queries or concerns, please feel free to contact your respective relationship person from our team, you will be able to contact them as usual by email, via their direct lines or on their mobiles.
